## Important information

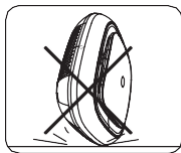

Do not spill upon or clean the device with any liquids such as water, detergents or flammable solvents.

To clean the device:

1. Turn the device off and unplug it.
2. Use soft dry cloth only.

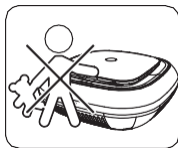

ZMedicAir car air purifier contains high-precision technology. Handle with care. Do not tamper.

Do not cover the device with any object.

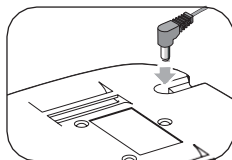

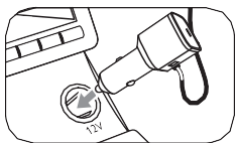

For your own safety, do not adjust the device while driving.

The device is not a toy. Keep it away from the reach of children.

# Device installation:

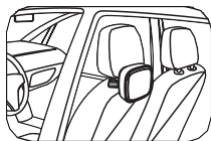

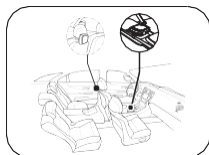

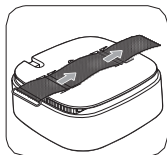

Follow the instructions below to install the device in your car. Make sure to unpack the filter from its bag before inserting it to the device. The device can be installed in different car spots like the armrest, headrest etc.

1. Plug the ABS end of the wire into the charger and the other link to the purifier.
2. Plug the charger into the cigarette lighter socket in the car.
3. Place the device using the anti-skid mat provided.
4. To start up:
  - A. Start car engine.
  - B. Touch the power button to start the device.
  - C. Press the power button to choose the desire speed.
5. To shut down:
  - A. Touch the power button to shut down the device.
  - B. When the power supply is over/under voltage, the device will shut down.

Car air purifier can be installed in different positions:

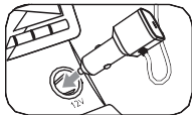

1. Horizontal.
2. Vertical (90°).

# Change filter:

Car air purifier is composed of a multi-layer filtration system that guarantees the most effective air purification.

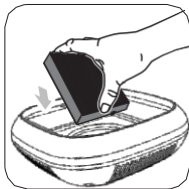

The device indicates automatically when filter change is necessary. Follow the instructions below to change the filter:

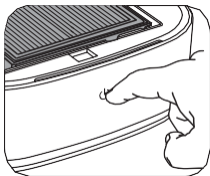

1. Switch of the device and unplug it.

2. Press the cover's front side button and take off the top cover.

3. Remove the used filter and replace it with a new one. Put the front cover back.

4. Press and hold the ON/OFF button for 5 sec to reset the filter life.

**Note:** Activating the device in different environments may result in different filter life. Generally, it is recommended to change the filter every 10-12 months (unless an earlier indication by the device shows up).

# Product specifications and parameters:

**Product name:** Car Air Purifier

**Model:** HK203

**Country of origin:** China

**Dimensions:** 175×175×72mm

**Product weight:** 600g

---

**Working voltage:** DC 5V/12V

**Rated power:** 3W

**Applicable environment:** Car, office and other chambers

**Negative ion content:** 60,000,000/minute

**Noise level:** <45dB (A)

**Working temperature:** (-10)-70°C

---

**Cable length:** 1.25m

**Input:** 5V

**Output:** 4.2V
